

Press Release

Call for Ideas: Song-Contest

Germany is looking for the super-anthem – The contest has started!

We are looking for a new anthem for this country.
A piece everyone here can relate to.
A fresh song up to date with our times.

Join in – create the super-anthem!

Everyone can take part in the contest, all music genres, all languages, every taste.
Write your piece!

Until May 30th participants can register with a description of their song idea on
www.superhymne.de

What happens then?

Selected participants are invited to a **casting in Berlin** to present their song idea.
Note that we cannot pay any traveling or lodging expenses.

The casting will be filmed and a selection of the candidates' clips will go online.
From May, 5th to June 12th **people can vote for their favorite** candidate on the project's website. Six
of them will make it to the next round.

For four weeks the **six finalists** will work on their song ideas in Berlin, together with professional
musicians, bands and music producers, preparing the performance of their song.

The finale will be a **concert in Berlin** beginning of July, where the candidates will present their songs.
The audience votes for their favorite – and Germany's super-anthem is found!

The **super-award**: We will have the super-anthem be produced in a professional recording studio
and have a music video shot to it.

We will send you the project's logo and poster-motive (jpeg) on request or you can
download it from the "press"-section at our website.
